The ledger accounts are the separate records of the business transactions carried by an entity that is prepared using the reference of the daily journal entries and are related to a specific account, which can be an asset or a liability, capital or equity, expense item, or revenue item.

Ledger Account Examples | Most Common Examples with ...

A transaction is entered in a journal before it is entered in ledger accounts. Because each transaction is initially recorded in a journal rather than directly in the ledger, a journal is called a book of original entry. A ledger (general ledger) is the complete collection of all the accounts and transactions of a company. The ledger may be in loose-leaf form, in a bound volume, or in computer memory.
