American Spies - Modern Surveillance, Why You Should Care ...

I think people believe surveillance is something that happens to others, that the technology of surveillance today is such that instead of somebody trying to spy on people because they're suspected of being in a drug cartel or because they're foreign terrorists, there's this broad, opportunistic, suspicionless collection that happens, which means that lots of random, innocent people's information ends up in government databases and then that information can be searched or data mined ...
