The Calira 30/20 and 38/20, both 20amp chargers, will support a battery bank no greater than 200Ah maximum. Bear in mind that the Calira range also charge the Starter Battery so an allowance must be made for this as well. The earlier Calira chargers like the 17/12, is only a 12amp charger, so will support only 120Ah, including the Starter battery.

Calira Battery Charger information

Whether your Calira Evs 20/30 developed some problems or is not working at all, we're here to help. Therefore, in conclusion, there is no reason to buy a new PCB Board especially if you can get an Evs 20/30 fixed or an upgrade of your current Calira PCB Board at a fraction of the cost of purchasing it new.
