### (PDF) Emerging Adulthood in an European Context

The starting point for the studies included in this special issue is the assumption that the same can be said for European countries. Thus, a comparison of characteristics of emerging adulthood between different European countries was performed. In this special issue, contributions of scholars from five different European countries are taken as representative of different regions: Spain, Italy, Finland, Germany, and the Czech Republic.

### Emerging Adulthood in Europe: Common Traits and ...

Emerging adulthood has been proposed as a new life stage between adolescence and young adulthood, lasting roughly from ages 18 to 25. Five features make emerging adulthood distinctive: identity explorations, instability, self-focus, feeling in-between adolescence and adulthood, and a sense of broad possibilities for the future.

### Emerging Adulthood | Noba

Europe is the region where emerging adulthood is longest and most leisurely. The median ages for entering marriage and parenthood are near 30 in most European countries (Douglass, 2007). Europe today is the location of the most affluent, generous, and egalitarian societies in the world—in fact, in human history (Arnett, 2007).

For instance, researchers have determined that Europe is the area where emerging adulthood lasts the longest, with high levels of government assistance and median marriage ages nearing 30, compared to the U.S. where the median marriage age is 27.

### Emerging adulthood and early adulthood - Wikipedia

Emerging adulthood is a period from the late teens through the twenties, when individuals are faced with more transitions and life-decisions than at any other stage of life.

### Risk Factors for Depression in the Emerging Adulthood ...

Emerging Adulthood in Europe: A Response to Bynner. It is a great honor to have my theory of emerging adulthood addressed by John Bynner, a scholar whose work I have long admired, and an even greater honor that he finds merit in my ideas and endorses the theory to a large extent. Bynner agrees with my argument that social, economic, and demographic changes over the past half-century have resulted in dramatic changes in
