### Global Political Economy

International political economy, also known as global political economy, refers to either economics or an interdisciplinary academic discipline that analyzes economics, politics and international relations. When it is used to refer to the latter, it usually focuses on political economy and economics, although it may also draw on a few other distinct academic schools, notably political science, also sociology, history, and cultural studies. IPE is most closely linked to the fields of macroeconomy

### International political economy - Wikipedia

Robert Gilpin's Global Political Economy: Understanding the International Economic Order delivers what it promises by giving readers an understanding of economic relations among nations. Essentially, it is an introduction to the discipline of political economy, a survey of economic developments since World War II, and an analysis of the theories that compete to explain these developments.
