### Reproduction And Responsibility The Regulation

The appeal of doing nothing in this arena is, frankly, rather great, not only because the costs of regulation may be high (and, in their full proportions, incalculable in advance) but also because the areas of assisted reproduction, new genomic knowledge, and embryo research are socially and politically quite sensitive.

### PCBE: Reproduction and Responsibility: The Regulation of ...

There is minimal direct governmental regulation of the practice of assisted reproduction. There is extensive professional self-regulation of the practice of assisted reproduction, but compliance with the standards invoked is purely voluntary.

### PCBE: Reproduction and Responsibility: The Regulation of ...

Especially because technological innovations are coming quickly and because there are today no other public institutions charged with setting appropriate limits, we believe Congress should consider some limited targeted measures—bundled together perhaps as a “Reproduction and Responsibility Act”—that might erect boundaries against certain particularly questionable practices. iv These measures, proposed as moratoria, would remain operative at least until policymakers and the public ...

### 10+ Reproduction And Responsibility The Regulation Of New ...

The relevance of the right to privacy to the regulation of assisted reproduction is easily recognized, while its likely application in actual cases is difficult to predict. A fourth principal concept in American law, directly relevant to the present inquiry, is that the public and private realms of conduct are legally and ethically distinct.

### PCBE: Reproduction and Responsibility: The Regulation of ...

I am pleased to present to you Reproduction and Responsibility: The Regulation of New Biotechnologies, the latest report of the President's Council on Bioethics, and one that contains a set of unanimous policy recommendations. The product of two years of research, reflection, and deliberation, we hope that it will prove a worthy contribution to understanding and addressing important ethical and social issues arising at the intersection of assisted reproduction and genetic knowledge.

### The President's Council on Bioethics: Reproduction and ...

Reproductive ethics is concerned with the ethics surrounding human reproduction and beginning-of-life issues such as contraception, assisted reproductive technologies (e.g., in vitro fertilization, zygote intrafallopian transfer (ZIFT), intracytoplasmic sperm injection (ICSI), etc.), surrogacy, and preimplantation genetic diagnosis.

### Reproduction and responsibility: the regulation of new ...

The FDA's regulations for reproductive tissues, if and when they are finalized (in the case of the screening and good tissue practice provisions) and officially implemented, may have some impact on assisted reproduction. The regulations currently in effect require certain owners and operators of facilities that work with reproductive tissues to register and list such tissues with CBER.
