Sometimes they even bite and chew their tails when they “catch” them, causing hair loss or serious injury. Compulsive behavior can develop for a number of reasons. Sometimes dogs start compulsive...

Dog Compulsive Behavior - Spinning, Tail Chasing, Pacing ...

Psychogenic alopecia is another common cause. This is the compulsive disorder that would influence the kitten or cat to obsessively groom itself. Excessive biting and licking of the tails would result in hair loss. You will first notice baldness on the pet’s abdomen than on rear legs, tail and to the spinal skin.

Cat Losing Hair on Tail or Back Near Tail Base Causes ...

Compulsive grooming, known as psychogenic alopecia, is usually triggered by a change in the cat’s daily routine or environment, such as moving to a new house or the arrival of a new family member or pet. Cats are very observant and may even feed off of our stress levels.

Cat Overgrooming: Why Is My Cat Licking Itself So Much ...

Conditions such as arthritis in the tail, a broken tail, a foreign body like a foxtail stuck in the tail's skin, or lower back pain can all result in excessive tail grooming. Emotional distress from anxiety or fear and behavioral disorders, such as compulsive tail-chasing, can also cause excessive tail chewing.

Reasons Why Your Dog is Losing Tail Hair | Hill's Pet

Author: Linda Created Date: 11/15/2008 10:36:01 PM Title ()

Hypnosis Alliance Network of hypnotist practitioners and ...

Loss of hair on a dog’s tail can be indicative of a few possible problems. While a proper diagnosis cannot be made without an exam, Dr. Judy Morgan, DVM, an integrative veterinarian who runs two animal hospitals in New Jersey, says that fleas are the first thing she looks for whenever she sees hair loss on the tail or tail base.

Why Dogs Lose Hair on Their Tail | PetMD

Compulsive scratching, licking, and chewing behaviors are quite common in dogs and have a variety of causes. They can also be harmful. They can also be harmful. One of the first signs your dog has a problem might be the development of a “hot spot” -- a red, wet, irritated area that arises from persistent chewing, licking, scratching or rubbing.

Compulsive Licking, Biting, and Scratching in Dogs

Alopecia or hair loss can result when cats over-groom and remove fur. Overgrooming can take the form of excessive licking or the pulling out of tufts of hair. The diagnosis of psychogenic alopecia as a compulsive disorder is reserved for those cases in which no underlying medical problem is evident.

Cat Behavior Problems - Compulsive Disorders in Cats | VCA ...

This is a medical term for what is more commonly referred to as “rippling skin syndrome,” “rolling skin syndrome,” or “twitchy cat syndrome.” Other technical names for the condition include neuritis and atypical neurodermatitis.
